Education

Rutgers University - New Brunswick - G.P.A. 3.97

August 2025 - May 2027

Bachelor of Science in Computer Science

New Brunswick, NJ

Bachelor of Science in Data Science

Passaic County Community College

May 2023 - December 2024

Associate of Science in Computer Science

Paterson, NJ

Experience

Software Engineering Intern

June 2026 - August 2026

Visionist Inc

Columbia, MD

- 1st place in SIPS AFCEA 2026 competition for AI-driven full-stack application
- Implemented Agile methodology, sprint planning, stand-ups, code reviews, etc.
- Built a full-stack web application for adversarial testing of AI image attribution
- Reduced target model's classification accuracy from 99% to 20%
- Implemented a Python backend with a React front end

Skills: PyTorch, AWS, FastAPI, Python, React.js, GitLab, Docker, Multimedia Presentation

Software Engineering Intern

January 2025 - June 2025

The ASPI

Tampa, FL

- Led requirements gathering with scientists and business stakeholders
- Full-stack software development
- Built a scalable, relational SQL database handling 10000+ records
- Implemented Microsoft Authentication
- Hosted database and web application through Microsoft Azure

Skills: MySQL, Node.js, React.js, Azure, CSS

Computer Science Teachers Assistant Internship

October 2024 - December 2024

Paterson STEAM High School

Paterson, NJ

- Designed and delivered lessons in beginner and intermediate computer science (Python, algorithms)
- Created and implemented a curriculum tailored to high school students' skill levels
- Provided one-on-one mentorship, clarifying programming concepts and debugging code

Congressional Internship

June 2024 - July 2024

New Jersey's 9th congressional district office

Paterson, NJ

- Communicated policy and jurisdictional limitations clearly to constituents
- Documented constituent concerns, opinions, and case details for staff follow-up and casework tracking
- Handled 100+ constituent cases weekly

Projects

Personal Website | JavaScript, HTML, CSS, Git, VS Code, React, Docker, Linux

May 2025 - August 2025

- Designed and built a desktop-OS-style portfolio from scratch
- Implemented window state management entirely in React without a UI library
- Containerized with Docker and self-hosted on a personal Linux server

Spotify Viewer | JavaScript, HTML, CSS, Git, VS Code

April 2025 - May 2025

- Developed a front-end web application using JavaScript, HTML, CSS, and the Spotify API
- Implemented Spotify Auth to pull user data, displaying listening history statistics
